

Introducing the
PANDA L-STAND™
 The Eco-Friendly *L-Framed* Bamboo Banner Stand

As part of our commitment to a greener product selection, Lumichrom is pleased to introduce an innovative banner stand - fabricated of 95% bamboo.

The Panda L-Stand™ is a versatile display unit engineered to combine high functionality and low environmental impact. The stylish design features a sturdy, L-shaped bamboo frame that supports base and top graphic-rails via a simple tension system. The Panda L-Stand snaps together in a few minutes and breaks down quickly into a compact, light-weight transportable unit. A cotton-cloth carrying bag is included.

Primarily constructed of bamboo, Lumichrom's Panda L-Stand is a renewable agro-forestry product now finding increased use as an industrial material. As the fastest growing plant on the planet, bamboo is a viable replacement for wood and metal, and provides a critical component in the balance of oxygen and carbon dioxide in the atmosphere.

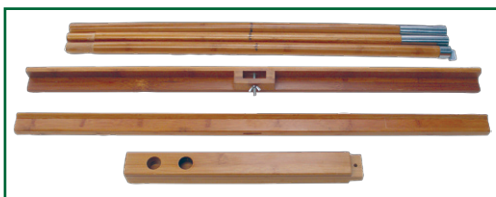

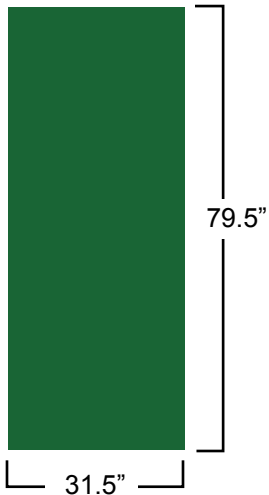

Why bamboo?

- Fastest growing plant on earth with increasing use as a versatile industrial material.
- Rapid maturity cycle of 3-4 years with the viability to replace wood or metal components.
- Provides a critical component in the balance of oxygen and carbon dioxide in the atmosphere.

Please note that the variety of bamboo used in this product is plantation grown and not part of the Giant Panda's diet.

PANDA L-STAND™

An earth-friendly alternative to conventional display solutions

Features & Benefits:

- Fabricated with 95% bamboo
